## Part A: Pupil premium strategy plan

### Statement of intent

Our intention is that all pupils, regardless of their background or challenges that they may face, achieve, and make good progress through the TreeHouse school curriculum, their individual targets derived from individual EHCPs and through behavioural and AHP support.

The focus of our pupil premium strategy is enabling each pupil to achieve their full potential, and in doing this we will consider individual needs and circumstances.

High quality teaching alongside effective behavioural and AHP interventions, and a focus on quality of life, is at the heart of our approach, with an additional focus on where disadvantaged pupils require the most support. It is our intention that all the pupil's achievement and attainment will be sustained or increased, including those who are in receipt of PPG.

Our approach will be responsive to common challenges as well as individual challenges and needs, rooted in assessment of need.

To ensure our approach is effective we will:

1. Ensure all our pupils can access education, through minimising their barriers to learning.
2. Act early to intervene at the point any additional needs are identified, or existing needs cannot be met effectively.
3. Adopt a whole school approach in which all staff take responsibility for all pupils' outcomes and raise expectation of what they can achieve.

## Challenges

We have identified 5 thematic areas to focus our PPG funding on. These include; Accessing the community, Impact of puberty, Digital communication needs, Pupils self-regulation needs, and Curriculum development and resources.

Challenge number	Detail of challenge
1.	Due to barriers in communication, some pupils find it difficult to express their needs and as a result may express behaviours of distress, causing physical or mental harm to themselves and those around them (pupils and staff), including damage to property.
2.	Behavioural assessments and community-based risk assessments indicate that access to the community and extra curricula activities is extremely limited for some pupils due to the need for high staff support ratios required to keep specific pupils safe.
3.	Due to pupil's barriers to learning and communication, some pupils (and their families) find puberty a particularly confusing and challenging time.
4.	Some pupils do not have access to sufficient IT equipment at home. Sometimes this is because previously supplied IT equipment has been damaged or broken. This is especially important from those that may need to access learning from home or need digital devices to support their communication.
5.	Due to cognitive and behavioural barriers, some pupils find it difficult to access important aspects of the curriculum.
6.	Pupils who are dysregulated benefit from time out or regulation spaces that are pleasant, help them regulate, keep them safe and are fit for purpose.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

## Part B: Review of outcomes in the previous academic year (2022/23)

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

- 100% of PPG pupils made progress though the curriculum from their individual starting points.
- All pupils that have high staffing ratios (3:1, 4:1) to access the community were able to engage in community outings and activities at least once per half term.
- A drama therapist was employed to work with individual pupils on self-regulation and communication.
- 18 pupils successfully accessed a number of community trips and projects such as BlueHouse Yard, St James church, Saracens rugby club, Wave café, Bikes for good causes and CV workshops due to extra staff that were deployed through PPG funding.
- 28 Pupils were exposed to experiences that promote cultural capital, such as trips to watch West End productions and musicals and cinema experiences. An autistic pianist and a sensory orchestra came into school to perform for pupils.
- Time out spaces were refurbished, and a padded wall was installed within one of the calm rooms.
- Pupils that needed to participate in online learning were given ipads or laptops to keep at home. 8 pupils were given ipads with individualized AAC installed on it.
- Secondary pupils were assessed using our careers framework from Talentino and Skills builder.
- 12 pupils received targeted RSE support from our 2 trained specialists. A parent workshop was delivered to parents who wanted to know how to support their young people going through puberty.

- Breakfast club was delivered to ensure that breakfast was available to all pupils who wanted it. This is heavily utilized by pupils that arrive to school hungry or become hungry due to long journeys into school.
- Enhanced music and drama offer to support pupil engagement and wellbeing
