

Work-related learning and enterprise: Pupil journey at TreeHouse School

Our vision for work-related learning and enterprise:

Our person-centered approach ensures all our pupils can access quality careers education and guidance, tailored to their needs and aspirations. Through our bespoke offer, our pupils are supported to develop the skills and experiences needed to best prepare for adulthood, and transition successfully onto their chosen pathway.

Internal work experience - Pupils engage in simulated work scenarios within the school environment.

External work experience - Pupils leave the school environment to engage in a work placement with one of our partner employers.
